Summary

MCA student with a strong foundation in Java, OOP, SQL, MySQL, and backend development. Experienced in developing web applications using Java, JSP, Servlets, JDBC, and MySQL, with hands-on experience building Hospital Management and Smart Vehicle Fleet Tracking systems. Currently developing skills in Spring Boot, REST APIs, JPA, and Hibernate, seeking a Java Backend Developer role.

Skills

Languages: Java, SQL, Python
Backend: Spring Boot, Spring, REST APIs, Servlets, JSP, JDBC
Database: MySQL, DBMS
ORM: JPA, Hibernate
Tools: Git, GitHub, Maven, Eclipse, IntelliJ IDEA, VS Code, Postman
Concepts: OOP, Data Structures & Algorithms, Operating Systems, Computer Networks

Projects

1) Hospital Management System , *Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, JavaScript*

- Developed a full-stack role-based hospital management system with separate portals for Admin, Doctor, Nursing Staff, Pharmacy, and Patient.
- Built 50+ Java classes, Servlets, and JSP views using MVC architecture and DAO pattern to manage hospital data across multiple user roles.
- Applied the DAO pattern and parameterized SQL queries to improve database security and prevent SQL injection.

2) Smart Vehicle Fleet Tracker , *Java 17, Jakarta Servlets, JDBC, MySQL, Maven, JSP, JavaScript, Leaflet.js*

- Architected a full-stack Java EE MVC application using Java 17, Jakarta Servlets, JDBC, MySQL, and Maven, with 10 database tables, 20+ Servlet controller endpoints, and 25+ dynamic JSP interfaces for fleet operations.
- Automated perimeter breach alerts and location-status updates while securing REST telemetry API ingestion endpoints with token authentication.
- Developed analytics dashboards and workflow automation using optimized MySQL aggregate queries to track monthly expenditure and fuel efficiency (km/L); enforced database integrity rules to prevent duplicate vehicle assignments and automate preventive maintenance schedules.

INTERNSHIP EXPERIENCE

Networking Cloud Virtual Intern, *EduSkills & Juniper Networks Cloud & Automation Academy* 04/2026 – 06/2026
Completed an 8-week virtual internship focused on networking and cloud technologies.Gained practical exposure to cloud computing, networking concepts, and network automation.

Education

Master of Computer Application (MCA) 2025 – 2027 | Rajaramnagar,Maharashtra
Rajarambapu Institute of Technology,Rajaramnagar
CGPA : 8.72

Bachelor of Computer Science (BCS), *Sadguru Gadage Maharaj College, Karad* 2022 – 2025 | Karad,Maharashtra
CGPA : 8.52

Certificates

Networking Cloud Virtual Internship — EduSkills & Juniper Networks Cloud & Automation Academy | 2026

Advanced Java Programming for Scalable Innovation: Spring, Spring Boot and Microservices — Technical Program | 2026

ACHIEVEMENTS

Winner (1st Rank), Techtrail | AAVISHKAR 2k26 - Government College of Engineering, Karad
Secured the top rank among participating teams as part of 'Team-code storm' in a technical competition sponsored by Shree Refrigerations.

Third Rank, National Level Quiz Competition | INSPIRA 2K26 — Rajarambapu Institute of Technology
Secured the 3rd rank in the Quiz Competition.
